

Tickets/Labels

Windshield Label UHF

Description

The Windshield Label UHF is specially designed for fast and reliable vehicle identification. The passive UHF RFID label is optimized to work on car windshield glass and suitable for a wide selection of automatic vehicle identification applications such as access control, parking permit, road toll collection or insurance information verification. The product is non-transferable and cannot be removed without being destroyed.

Applications

- Access control
- Toll station
- Parking spaces

Personalisation options

- Offset printing of a customer logo
- Thermo printing of serial or UID number

RFID Option

- UHF

Technical Data
